

## **PIER Lighting Research Program Integrated Classroom Lighting System Installations**

The Integrated Classroom Lighting System has been installed in nineteen classrooms at six California schools. The systems will be monitored and data collected during the 2003/2004 school year. Teachers will also complete satisfaction surveys.

The six schools with the installations are listed below:

- Heritage Oak Elementary School, four classrooms, 2271 Americana Drive, Roseville, California, 95747
- Dudley Elementary School, four classrooms, 8000 Aztec Way, Antelope, California, 95843
- Highland Elementary School, four classrooms, 8521 A Street, Oakland, California 94621
- Coyote Creek Elementary School, three classrooms, 8700 Northgale Ridge Road, San Ramon, California, 94583
- Country Club Elementary School, three classrooms, 7534 Blue Fox Way, San Ramon, California, 94583
- Carlmont High School, one large laboratory, 1400 Alameda de Las Pulgas, Belmont, California, 94002

If you have additional questions, please feel free to contact either Terry Clark with Finelite Inc. or Judie Porter at Architectural Energy Corporation.
